as much care should be used in the selection of drugs as choosing a doctor. Without pure, fresh drugs the physician's efforts are without avail. Our Prescription Department is the best equipped in Gratiot county. Our drugs are received fresh, direct from the laboratory each week and every prescription receives the attention of the proprietors, both of whom are gradgates in pharmacy and registered by examination. When your prescriptions or family receipts are put up by us you can feel sure that you will get the best results. The large amount of drugs moved every month, allows us to buy in quantity, and consequently to sell at the very lowest price. The fact that we furnish nearly every doctor in this community with his medicines s proof that they are fresh and that they are purchased at the lawest price. , THE GAME OF JACK KNIFE

Is a game of stick-sticking the knife in the ground. Another game, -played by some dealers is one of "stick the public." They sell cutlery made of poor metal. We do not handle that kind. Our Table Knives, Kitchen Knives, Butcher Knives, Pocket Knives, etc., are made of fine steel tempered by an improved process. They will take a keen edge and hold it.
